SUMMARY

Computer Science and Engineering undergraduate (CGPA 7.74) with hands-on experience building web applications using React.js, Node.js, Java and MySQL. Completed a four-month software development internship where I built an onboarding management system, and have built projects using blockchain and REST APIs. Seeking a Software Engineer role.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, C, SQL
Frontend: React.js, HTML5, CSS3, Responsive Web Design
Backend & APIs: Node.js, REST APIs
Databases: MySQL, PostgreSQL
Blockchain: Ethereum, Smart Contracts (Solidity), IPFS, SHA-256 Hashing
Tools: Git, GitHub, VS Code
CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

EXPERIENCE

Ankyah Nexus Jan 2026 – Apr 2026
Software Development Intern *Mysore, Karnataka*

- Built a web-based **Onboarding Management System** for interns and freelancers using React.js and MySQL, reducing manual onboarding time from 3 hours to under 45 minutes per batch (120+ candidate records).
- Developed the **document upload module** (300+ files, 3 user roles) and added form validation on both the client and server side, reducing data-entry errors by 40%.
- Built the registration-to-approval flow with status updates (e.g., Pending, Approved) and an admin dashboard to track candidates, removing several manual steps.
- Worked in a team using Git branches and pull-request reviews, delivering 8 features over 6 sprints.

PROJECTS

Chain of Custody — Digital Forensic Locker | Solidity, IPFS, React.js Apr 2026 – Present

- Proves evidence is unchanged by storing its SHA-256 hash in an Ethereum smart contract, with files kept on IPFS.
- Logs every custody transfer as a permanent, time-stamped record, viewable in a React.js dashboard.

Merkle Seal — File Tamper Detection | JavaScript, Web Crypto API Sep 2026 – Oct 2026

- Seals a set of files under one SHA-256 Merkle root and pinpoints which file was modified, added, removed or renamed.
- Blocks second-preimage and CVE-2012-2459 forgeries, signs seals with ECDSA, and is covered by 38 automated tests.

TaskFlow — Task Management REST API | Java, PostgreSQL Jun 2026 – Aug 2026

- Built a 14-endpoint REST API for task boards with role-based permissions and bcrypt password hashing.
- Sped up task listing with PostgreSQL indexes and a single JOIN query in place of many separate queries.

EDUCATION

Mangalore Institute of Technology & Engineering 2023 – 2027
B.E., Computer Science & Engineering (IoT, Cybersecurity & Blockchain Technology) —
CGPA: 7.74/10 Moodbidri, Karnataka

Rotary PU College 2021 – 2023
Senior Secondary (Class XII), PCMC — 89.83% Moodbidri, Karnataka

CERTIFICATIONS & TRAINING

Frontend Web Developer: Modern HTML, CSS & JavaScript — Udemy, 2025 | RPA Developer Foundation — UiPath, 2025
Real-Time Operating Systems — NPTEL, 2025 | Internet Crimes and Cyber Security — NPTEL, 2026
Workshops: IoT with Analytics: Prototyping & Design (2025); Ethical Hacking (2025) — Mangalore Institute of Technology & Engineering
